Corporate IT Infrastructure Budget & Financial Ledger (2026-Q3)

Audit Standard: ISO/IEC 27001 Financial Governance | Department: Technology Operations

1. Executive Financial Summary

This audited quarterly financial report outlines capital expenditures, SaaS licensing agreements, and infrastructure compute expenditures for Technology Operations during Q3 2026. All vendor procurements followed corporate security policy and were verified through annual compliance audit procedures.

2. Approved Expense Line Items & Vendor Allocations

Cost Center	Expense Category	Vendor Name	Budgeted ($)	Actual ($)	Variance ($)	Status
CC-101	Cloud Infrastructure Hosting	Amazon Web Services Inc	145,000.00	141,200.50	-3,799.50	Approved
CC-101	Security Endpoint Protection	CrowdStrike Holdings	38,000.00	38,000.00	0.00	Approved
CC-102	Developer Tooling	Atlassian Inc (Jira/Confluence)	22,500.00	22,500.00	0.00	Approved
CC-102	Code Collaboration	GitHub Enterprise Services	18,000.00	18,000.00	0.00	Approved
CC-103	Corporate Identity & SSO	Okta Identity Cloud	28,000.00	27,500.00	-500.00	Approved
CC-104	Enterprise Communication	Slack / Salesforce	16,500.00	16,500.00	0.00	Approved
CC-105	External Compliance Audit	Deloitte & Touche LLP	65,000.00	65,000.00	0.00	Approved

3. Variance Analysis & Fiscal Controls

Overall technology expenditures remained 1.3% below allocated budget caps due to compute instance reservations and database instance right-sizing initiatives in AWS us-east-1 and eu-central-1 regions.

• **Cloud Savings**: AWS compute optimization saved $3,799.50 against forecasted demand.

• **Identity & Security**: CrowdStrike and Okta license allocations operated at 100% capacity with zero variance.

• **Audit Assurance**: Deloitte & Touche completed annual SOC 2 Type II and ISO/IEC 27001 audit workstreams on schedule.
